

# Green + Sustainable Bonds and Their Outcomes

Luis Señires and Hiroaki Kurachi

December 3, 2024

# Table of contents I

Introduction

Datasets

Findings

Conclusion/Recommendation/Further Research

# Introduction

# Backgrounds

# Research Question

# Datasets

## Bond issuance

## EPI (Environmental Performance Index) by Yale Univ., etc.

- ▶ Calculated each 2 years

## Findings

# Bond issuance trends

Share in Whole bonds

Green/Sustainability rate

Growth of issuance

other observations which would be helpful for association analysis afterward (or not)

# EPI traits

Standardisation by world average

Observation

Should we use transition of ranks, rather than change in score?

## Bond $\leftrightarrow$ EPI associations

Conclusion/Recommendation/Further Research
